

CPD 360° Virtual Tours

Panorama Virtual Tours

CPD International is pleased to offer CPD 360°, a service which can provide virtual tours of heavy industry sites and commercial/private property. Examples include oil rigs, factories, hotels and condominiums. CPD is using the latest technology to create the highest quality "Panoramas" which can be stitched together to allow interested parties to visit your facilities without leaving their office.

CPD 360° can be utilized for marketing purposes and for inducting new personnel. In fact the Panoramas can be used for any application that requires a person to view a remote location. Each Panorama has navigation tools which allow a person to pan up/down; left/right and zoom in/zoom out.

CPD 360° is a complete solution. Our photographers shall take all the necessary pictures which are in turn rendered into Panoramas which can be hosted on our secure website and/or they can be provided to you on CD.

CPD International

CPD 360° Virtual Tours

Virtual Tours of Private Properties

CPD 360° provides home owners and real estate agents with a powerful tool for previewing properties in a timely and convenient fashion. Buyers and sellers alike will benefit from virtual tours by saving the time associated with the initial showing of the property. Your panoramas can be hosted on our website where they can be viewed over the Internet or provided to you on CD.

Virtual Tours of Commercial Properties

CPD 360° can attract new clients to your hotels, banquet halls and theme parks by allowing people to take virtual tours. Heavy industries may also benefit from virtual tours by using the Panoramas to induct new personnel into their surroundings. By taking Panoramas on a scheduled basis they can also be used for maintenance purposes.
